Maretti Lighting is well-known in the World of interior design. In businesses, homes, store chains, and hospitality facilities all over the world, Maretti is unmistakable present with its project lighting that does more than just provide light. We make lighting an essential part of the interior. Maretti stands for stylish top quality and trendsetting design, modern, timeless and most of all, original.

Maretti Lighting works with all the top brands in the lighting industry, but we are especially notable for our own large product line and introduce our own brand name "Maretti". Our production team distinguishes itself time and time again with unique innovations from our own atelier and therefore our projects exude an entirely unique identity.

Our IM was made with the greatest of care. Nevertheless, the colours displayed in the IM may differ slightly from the real colours because of the printing process. Colour, size and range are subject to change. Nothing from this IM may be copied, reproduced and/or published by print, photocopy or in any other way without Maretti Lighting's written permission. All product and design copyrights belong to Maretti Lighting.

GUARANTEE TERMS AND CONDITIONS

The other party should inspect the delivered items immediately upon receipt with regard to its soundness. Entitlements to repair or replacement only exist if the other party

- In the case of visible defects, informs MPV of them immediately.

- In the case of defects that are not visible, informs MPV in writing of the defects, within 2 working days after the day the defects were found, or in all reason could have been found and furthermore demonstrates that the MPV instructions for use, maintenance and operation were followed, whilst the defects are not the consequence of normal wear and tear, misuse, negligence, accident, exceeding the limits prescribed by the MPV or by the legal safety regulations, or, in the case of a repair or change without MPV's consent or the consent of its recognised repairer, there will be no entitlement to repairs or replacement. The parts that have to be replaced must be made available free of charge to MPV. Noncompliance by the other party to one or more of its obligations will release MPV of all its guarantee obligations. In the case of assembly of the other party's own products by Maretti, MPV will release itself from all guarantee stipulations. Moreover, our general delivery terms and conditions are applicable. These can be obtained from Maretti or can be downloaded from www.maretti.com

The installation must be done by a competent installer. Maretti recommends that your (outside) lighting and fixtures are inspected and maintained annually.

ROCCO SOLAR WALL

Outdoor collectie

400.0002.26

IMPORTANT TIPS:

- Optimize performance by placing the solar wall lamp in direct sunlight.
- Avoid shaded areas or under a roof to ensure optimal charging.
- Periodically clean the solar panel to maintain efficiency.
- For extended non-use, turn off the lamp to conserve battery power.

ON/OFF OPERATION:

- Press and hold for 1.2 seconds to turn the light on/off.
- When switching off, the light will flicker three times.

OPERATING PROCEDURE: 3 MODES SOLAR LIGHTS

MODE 1: SENSOR DIM

When it is dark, the light will automatically dim to 10%. When movement is detected, the light will brighten to 100%. After 25 seconds with no movement, the light will dim back to 10%.

- Press for 1 second to turn on the light.
- 10% lighting when ambient light is below 20 lux.
- 100% lighting triggered by the PIR sensor (remains at 10% until no movement is detected).
- After 5 hours of operation, the light dims to 5%.
- 70% lighting triggered by the PIR sensor (remains at 5% until no movement is detected).

MODE 2: NO SENSOR

When it is dark, the light will automatically dim to 50%. After 2 hours, the light will dim to 30%, and after 5 hours, the light will further dim to 20% until the end of the working cycle.

- Press for 1 second to switch to Mode 2.
 - 50% lighting when ambient light is below 20 lux.
 - After 2 hours, the light dims to 30%.
 - After 5 hours, the light dims to 20% until the end of the working cycle.
- Note: Mode 2 has no PIR sensor for movement detection.

MODE 3: STANDARD

When it is dark, the light will turn on when movement is detected and turn off after 25 seconds.

- Press for 1 second to switch to Mode 3.
- No lighting when ambient light is below 20 lux.
- 100% lighting triggered by the PIR sensor (returns to rest after 25 seconds without movement).
- After 5 hours, the light dims to 70% when triggered by the PIR sensor (returns to rest after 25 seconds without movement).

LET OP: Volg en bewaar deze gebruiksaanwijzing.

- Installatie, reparatie en onderhoud uitsluitend door gekwalificeerde personen.
- Voor reparatie of onderhoud uitsluitend originele delen gebruiken. Probeer het product niet zelf te demonteren en te repareren, onjuiste reparaties kunnen het product beschadigen en elektrische schokken veroorzaken wat tot ernstig letsel kan leiden.
- Om waterdichtheid te verzekeren dient u alle onderdelen handvast aan te draaien.
- Dit armatuur niet openen of installeren tijdens regen of hoge luchtvochtigheid.
- Uitsluitend op het etiket aangegeven lichtbronnen gebruiken.

De fabrikant aanvaardt geen enkele aansprakelijkheid voor letsel of schade als gevolg van een verkeerde toepassing van het armatuur. De fabrikant aanvaardt geen garantie in geval van het niet behandelen van de lampen volgens de richtlijnen van de fabrikant. Als er schade aan elektrische onderdelen te vinden zijn, vraag dan een electricien om het te vervangen.

Onderhoud is behoud:

- Een goede instandhouding van het armatuur is sterk afhankelijk van omgevings- en onderhoudsfactoren. Hierop kunnen wij geen invloed uitoefenen.
- Alle producten hebben onderhoud nodig, zo ook uw buitenlamp.
- Schakel voor de zekerheid de elektriciteit uit!
- Wij adviseren om 2x per jaar de armaturen te reinigen.
- Gebruik geen agressieve, schurende of chemische schoonmaakmiddelen.
- Aan de directe kuststreek en de Waddeneilanden adviseren we minimaal 1x per kwartaal de buitenlampen te reinigen.
- Goed onderhoud verlengt het plezier en levensduur van uw buitenlampen.

NOTE: Follow and keep this instructions manual.

- Installation, repair and maintenance only by qualified persons.
- Use only original parts for repairs or maintenance. Never attempt to disassemble, repair or alter the product in any way, improper repairs could damage the product causing electrical shocks which may cause serious injury.
- Make sure all parts are turned hand tight to be sure the item is waterproof.
- Do not open or install this luminaire during rain or highly humid condition.
- Use only suitable light sources indicated on the label.

The manufacturer accepts no liability for any injuries or damages resulting from the incorrect use or installation of the fixture. Any operation performed on the fixture that is not in accordance with instructions will void manufacturer's warranty. If you find any damage to the electrical parts, please ask a qualified electrician to replace it.

Maintenance is preservation:

- A good preservation of the fixture is highly dependent on environmental factors and maintenance. We cannot exercise any influence on this.
- All products require maintenance, including your outdoor fixture.
- Make sure that the mains voltage is switched off before you begin.
- We recommend to clean the fixtures 2x per year.
- Do not use aggressive, abrasive or chemical cleaners.
- On the immediate coast and the Wadden Islands we recommend cleaning the outdoor fixtures at least 1x per quarter.
- Proper maintenance extends the pleasure and lifespan of your outdoor fixtures.
